REPUBLICANS PLAN COUNTY CAMPAIGN WORK

Congressman Temple to Aid in Getting Speakers for Several Meetings

EXECUTIVE COMMITTEE MEETS

A meeting of the executive committee of the Republican party of the county was held Thursday in the public meeting room of the court house to discuss plans for the conduct of the campaign.

The committee has extended a general invitation to the Republicans of the county to contribute to the campaign and a popular subscription will be asked. Each of the members of the executive committee from the different sections of the county will make an effort to secure these subscriptions, so that the campaign can be carried on by those who are interested, from principle, in the success of the ticket.

The headquarters will be open from now on in the old Citizens National bank building, but the formal opening will not take place until Saturday, the 23rd of September. From that time forward an active campaign will be waged in the county for rolling up a record breaking vote for the entire Republican ticket.

Congressman Henry W. Temple, who was present at the meeting, will assist a committee named by the chairman to secure some well-known speakers for big meetings in four or five of the different towns of the county. Congressman Tempe will also speak at the smaller points, with local speakers and a local speaking bureau will be organized at once for this purpose.

Mr. Temple has been asked to spend two or three weeks in other states on a speaking tour arranged by the National committee and will arrange his dates so that they will not interfere with any arrangements which may be made for him in this county and district. In addition to the chairman Mr. Lockhart and the secretary. H. E. Pollock, those present were J. P Castner and Dr. J. A. Sprowls of Donora; John F. Cooper, Monongahela; Lee M. Crowthers, Fredericktown; R. L. Munce, Canonsburg; A. V. Lewis, John F. Carmichaels, Alvan E. Donnan, treasurer, Ray B. Drum, assistant secretary and John L. Stewart, Washington.

John Johnson of Dunlevy was the informant in the case alleging that the four men followed a woman to his house and broke in his house, taking his pocketbook. In the party he alleged were Monk Arnold, J. Ward, William Donough and George McPeck.

VERDICT STANDS IN LAWSUIT FOR NOTE

Court Hands Down Opinion Overruling Motion For New Trial—Local Man Defendant

In the suit of the Fayette City National bank of Fayette City against Jacob C Lowstutter in an opinion handed down by the court, written by Judge Irwin, the motion for a new trial and motion for judgment notwithstanding the verdict of the jury are overruled. The suit was an action against the defendant on a promissory note, dated April 1. 1914 for $1,932 45 payable on demand to the order of Andrew Brown at the Fayette City National bank. The note was given in payment for cattle which had been purchased from Mr. Brown. The cattle were bought for the California Provision company. J. C. Lowstuter and William Allen, the makers of the note, owned all the stock of this provision company. Mr. Allen did the buying for the company. The court finds that he bought the cattle from Mr. Brown but he did not disclose the fact that he was buying for the California Provision company.

SCHOOLS TO DEVELOP AGRICULTURAL STUDY

Rural Institutions to Introduce New Branch—Arithmetic to be Reformed and Grammar Instruction to be Made More Efficient

The Washington county schools will make an effort this year to develop the study of agriculture in the rural schools more than has ever been done before and to this end thorough preparations are being made to introduce this branch of education with a greater degree of efficiency. Heretofore. it has always been customary for country schools to pattern after city schools but efforts will be made to develop rural schools that are distinctively rural, a school for country children.

The tendency of late has been to place the taboo on a great many branches that are not used in after life, particularly as regarded arithmetic. A considerable part of this branch will be eliminated entirely while other parts will be restricted. The subject of compound proportion and the different complicated methods of computing interest will be dropped and longtitude and latitude will be touched upon only lightly. Compound denominator, complex and compound fractions are being made much briefer in the new text books. Foreign exchange has been dropped out entirely and measuration has been made easier, while cube root will almost entirely be done away with. In fact, it is the intention to eliminate as much as possible the things that the student will not use until he gets to high school where a more thorough course will be given.

There is also a tendency toward abbreviating the methods of teaching the technical forms of grammar and paying more attention to composition. Schools in Washington county and elsewhere are now giving two days to construction of sentences and composition and only three to technical grammar. Some teachers have even recommended the elimination entirely of technical grammar, claiming it is not necessary.

The question in the schools now is to give the scholar that for which he is best suited and to give a practical education as much as possible along with the book education. By doing so a great deal of the time formerly spent in idleness will be taken up in some useful pursuit and more time can be put in on the study of agriculture as opportunity for experiments will be given to he scholar thereby making his school work interesting as well as instructive.

THE MAINE ELECTION

The Republicans have carried Maine by 13,000. They have elected the Governor, two Senators and the four members of Congress, making it a clean sweep. The election proves that the Progressives have returned to the Republican fold, and is regarded by every experienced political observer as a certain forecast of the election of Mr. Hughes in November.

A Republican majority of less than 10,000 might have left room for argument, but a majority of 13,000 is regarded as making a Republican national victory certain. The defeat of Senator Johnson was a crushing blow to the Democrats.

Perceiving some weeks ago that they had little chance of carrying the State as a whole, despite the fact that their candidate for re-election as Governor had made a clean record and was popular, the Democrats concentrated their forces on the effort to reelect Senator Johnson. All their big guns, Sam Untemeyer, Josephus Daniels, Senators and Representatives, were sent into the State and all of them spoke especially for Senator Johnson. And the result is that the Republicans have swept the state

It is not surprising that there is rejoicing in the Republican camp. Since 1904, the Republican governors have been elected in Maine by pluralities of less than 8,000. In 1910 the Democrats elected the Governor by 8,753 and again in 1914 by 3,177. Now the Republicans have elected the governor by a vote larger than the combined Republican and Progressive vote of two years ago. Had the Republicans and Progressives been united in 1912, Woodrow Wilson would have been defeated by 1,300,000 votes. The Republicans and Progressives are now united.

ONE HOUR AHEAD.

If we could only persuade ourselves not to try to wear out the nights and to ge up at a tolerably early hour we would, in effect be turning the clock an hour ahead. But the point is we are not going to do that unless we feel forced to. Then it is possible we could accustom curselves to the idea.

Benjamin Franklin was of the opinion that it helped a man's health, made him wise and consequently assisted him in the acquirement of wealth to arise early and there isn't the least doubt in the world but that he was entirely correct.

It is to be hoped the vote is favorable when taken in this nation to set the clock forward one hour for it will help to bring us to a realization of what we are missing. The movement is one in the interests of daylight enjoyment.

FIFTH STREET

Until Fifth street was blocked by paving operations, people little realized how useful a street it was. Now they know and consequently very much appreciate the fact that paving work is near completion. Soon the borough will have an exit from the hill district that is just as passable in winter as in summer.

Last winter Fifth street travel was well nigh impossible. The weather was not very severe, as all remember, and mud was generally so deep as to utterly discourage all attempts of autoists to get hrough, and teamsters to refuse a test where they consistently could. Actually coal, during a part of the season, could not be hauled over it. That is the sort of a thoroughfare the borough is converting into a respectable street. It will be another encouragement of development of the hill district.

WHAT OTHERS THINK

MAKING NEW CITIZENS.

When Judge Charles P. Orr in the Federal court in Pittsburg a few days ago refused to grant naturalization papers to an alien who had been convicted of inciting riot, and had been released on parole, he furnished a lesson in the important function of making citizens which ought to have a most salutary effect. It will serve notice upon applicants that when not conferred by right of birth American citizenship is a high privilege which must be earned, not alone through compliance with the legal requirements of residence and declaration of intention, but by a knowledge of fundamentals of our government, and according to this judge's decree, by the still more important essential of a record free of acts in violation or in defiance of the laws of peace and order. It ought also to act as a deterrent to those who make more or less of a business of rounding up subjects for naturalization preceding elections without inquiring into their fitness to become citizens.

It directs attention to the necessity for a better training of those who would take upon themselves the duties and obligations of citizens. In this connection the establishment by Clay Frick Lynch in Mount Pleasant of a school for the purpose of fitting our foreigners who want to become Americans with a proper amount of education, as well as timely as it is patriotic, and should influence other centers having a large foreign population to provide the same facilities—Connellsville Courier.

PICKED UP IN PASSING

A beautiful young lady interviewed a fortune teller on the usual subjects.

"Lady," said the clairvoyant, "you will visit foreign lands and the courts of kings and queens. You will conquer all rivals and marry the man of your choice. He will be tall and dark and aristocratic-looking."

"And young?" interrupted the lady.

"Yes, and very rich."

The beautiful lady grasped the fortune teller's hands and pressed them hard.

"Thank you," she said. "Now tell me one thing more: "How shall I get rid of my present husband?"

He was traveling on a branch railroad in the north. After a series of sudden bumps and unexpected stops he became uneasy.

"Look here," he said to the porter, "is this train safe?"

"It sure am," said the porter.

"Well, have they a block system on this road."

"Block system, sah? We hab de greatest block system in de world. Ten miles back we were blockaded by a load of hay, six miles back we were blocked by a mule, just now we were blocked by a cow, and I reckon when we get farther souf we'll be blocked by an alligator. Block system, boss? Well, Ah should smile."—Memphis Avalanche.

GINGLES' JINGLES

BACK ON THE FARM.

We have manicured the fields of grain, we've milked a bunch of cows, to the shocks while pitching bundles we have made a million bows; we have beat it through the stubble with our bare feet scratched and sore, we have dumped the hard Leads with our toes and cursed them until we'd roar. We have seen the rain and sunshine, seen it all back on the farm, but we cannot say it hurt us, that it did us any harm; neither can we say we liked it, the cripped was cold and gray, it was hustle every minute 'till we beat it for the hay. And it seemed as though we'd hardly loose ourself to pleasant dreams, 'till a wild array of noises shouts, hurrahs combined with screams, would assemble us for action, bring us back to earth once more, duty calls, "right shoulder pitch forks," would be shrieked within our door. And that 4 a. m. old rooster, with his tenement near ours, for a bird was sure some yodler in the dawns' small early hours; but 'mid noises that disturbed us let him warble in the dawn, be the early bird and yodle—we should worry now, we're gone.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. Don't forget double Green Trading Stamps given on Opening Day. We would urge those who wish the best selections this year to make their purchases as early as possible. This year by early buying and getting the goods in early we were able to secure prices that we cannot duplicate later on if we are indeed able to buy at all. All the mills are working to their full capacity and are away behind in orders and firms that are not protected will have very little to offer you. We have anticipated this and are on the safe side. Now we are ready and it will givs us pleasure to show you these dainty creations for FALL WEAR and whether you buy or not you will receive the same careful consideration.
